'20-'27 Ball Bearing Fan Hub Installation Instructions

Your new fan hub is designed to use your old hub shaft, without the need to purchase a new shaft. Unless your old shaft is completely mutilated, it should work just fine. In fact, a worn original shaft may work better, as some of the replacement shafts that are available today are over-sized, and may require a light press fit to install it.

The spacer provided must be used between the hub and the mounting arm or bracket. It locks the inner bearing races when the shaft is tightened. The inner races must be locked to achieve proper operation of the ball bearings.

As sealed bearings have some inherent drag, be sure your belt is clean, free of oil, and adjusted properly. You may want to use some belt dressing until the seals loosen up (You may already be using some if you are running a water pump).

When mounting your fan blade, you may find it necessary to "move" slightly one or two of the holes in the blade. It seems that Henry didn't always put them in the same place.

This fan hub has sealed ball bearings and requires no lubrication.

If you like our product, tell your friends. If you have a question or a problem, let us know.

Thanks, and Smooth Running,

TEXAS 'T' PARTS LIMITED WARRANTY

Texas 'T' Parts will repair or replace any part that we manufacture, for a period of 90 days from the date of purchase, that wears out or breaks.

Since we don't install parts, the part must be installed on the type of individually owned and operated passenger vehicle for which it is designed. Of course, we cannot replace a part whose failure was caused by another faulty part, low fluid, or other abuse.

Return any part directly to us, along with a copy of the sales receipt showing the date of purchase, and \$5 to cover shipping & handling. Do not return parts to your dealer.

That's what our warranty means in plain English, but we regret we must include this legalese, too: THIS LIMITED WARRANTY REPRESENTS THE TOTAL LIABILITY OF TEXAS 'T' PARTS FOR ANY WARRANTED PART, AND TEXAS 'T' PARTS MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. TEXAS 'T' PARTS SHALL NOT BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES. Texas 'T' Parts reserves the right, at its option, to refund the customer's money instead of replacing a part. This warranty does not cover parts that are installed on marine, off-road, commercial, or government vehicles, or stationary units.
